

PRND/HAZMAT/WMD WORKSHOP

The Preventative Radiological Nuclear Detection Program, HAZMAT Working Group, WMD Working Group and the Environmental Crimes Task Force have collaborated to provide this exciting full day workshop the day after the TLO Conference in Arvada, CO.

Our goal is to bring together all the various disciplines from the Hazmat/WMD world to share information and have an opportunity to network.

This workshop will cover the following topics:

- **FBI: Threat Brief, Select Agent discussion**
- **Railroad HAZMAT**
- **HAZMAT and the Postal Service**
- **Forensic Epidemiology**
- **EOD Emergency Permitting**
- **Cyanco_ transportation of cyanide on transportation routes**
- **HAZMAT Rodeo: HAZMAT Vendors will display and allow you to test out the equipment**
- **CST: Case studies**
- **WIPP transportation: CSP role**
- **Preventative Radiological Nuclear Detection Program Overview**
- **Radicalization, Ideology, and Terrorism in the Middle East**
